LEUL YITBAREK KEBEDE

Full-stack developer / Computer Science student

leulyitbarek4149@gmail.com • github.com/Lytech22 • LinkedIn

PROFILE

Computer Science student developing full-stack applications with Laravel, React, TypeScript and SQL databases. At FDRE Mesob Service, I worked on a contact-center performance platform covering KPI tracking, quality assurance and training workflows. My earlier customer-facing roles inform how I approach usability, communication and real-world requirements.

TECHNICAL SKILLS

Languages TypeScript, JavaScript, PHP, HTML, CSS

Frameworks Laravel, React, Next.js, Inertia.js, Tailwind CSS, Vite

Data & APIs PostgreSQL, MySQL, REST APIs, authentication, role-based access

Engineering Git/GitHub, GitHub Actions, testing, debugging, documentation

TECHNICAL EXPERIENCE

Software Development & QA Intern

FDRE Mesob Service • Jul - Sep 2026

- Worked on Mesob Performance Hub, a contact-center platform for workforce information, KPI monitoring and quality-assurance processes.
- Developed and refined role-based interfaces for administrators, team leaders and agents, including evaluations, coaching, training, reporting and knowledge resources.
- Used Laravel, React, TypeScript, Inertia.js, PostgreSQL and Vite; supported validation, debugging, testing and release preparation.
